Organizer IQAC

Report:

- Data analytics is the collection, transformation, and organization of data in order to draw conclusions, make predictions, and drive informed decision making. Data analytics is often confused with data analysis.
- Artificial intelligence is based on the principle that human intelligence can be defined in a way that a machine can easily mimic it and execute tasks, from the most simple to those that are even more complex. The goals of artificial intelligence include mimicking human cognitive activity.
- Data science is the study of data to extract meaningful insights for business. It is a multidisciplinary approach that combines principles and practices from the fields of mathematics, statistics, artificial intelligence, and computer engineering to analyze large amounts of data.

Outcome:

- Students will become proficient in the statistical analysis of data and the use of computation tools for data analysis. Students will apply statistical and computational tools to applied problems, and clearly communicate the results in both written reports and oral presentations.
- Develop systems that process unstructured, uncurated data automatically using artificial intelligence (AI) frameworks and platforms. Determine the framework in which AI bots may function, including interactions with users and environments. Design and implement cognitive automation for different industries.

The event not only provided vital health services to the community but also fostered a sense of responsibility towards one's health. Such initiatives are crucial in promoting a culture of health consciousness and well-being within the community. All the doctors were felicitated with a memento for their noble services as health care professionals and thanks letters were given to them. Report -An orientation session on Soft Skills was conducted by the IQAC and the Placement Department on 18th October 2023 at 9:00 AM. This orientation session was to basically make the students of the third year aware of the soft skills which will be required by them during the job. The session was held in association with TNS Foundation, an NGO who provide placement opportunities to students in the BFSI sector and the training provided to the students is free of cost. The session was led by the resource person, Ms. Saumya Nair. The resource person started her orientation with a short introduction on the meaning of soft skills, further dividing skills into soft skills and hard skills. Soft skills determine the behaviour, the emotions and feelings of an individual. It evaluates the thinking that is the critical thinking of a person. She further added that soft skills play a vital importance in obtaining a job during any kind of job interview. The resource person stressed on building good communication skills with people around. The resource person then moved on to talk about the importance of controlling one's own emotions. She explained the importance of balancing the IQ (intelligent quotient) and EQ (emotional quotient) as they function in the same manner. According to her, emotionally intelligent person are the ones who have a strong sense of self-control in any situation. Emotions also require self-awareness. An individual must know how to control and must be aware of the different variations of emotions that he/she experiences. It is also vital for an individual to understand and respect the emotions of others and also possess the quality of empathy towards others. However, understanding another's emotions must not cross the required boundaries especially in the professional field. The resource person concluded her orientation by stating that soft skills must consist of self motivation, positive thinking with the right attitude towards every problem and to eradicate negativity. She states that if we have a negative attitude our success rate will go sliding down but if we have a positive attitude we are going to have 100% success in our lives. Having a positive attitude will take us where we want to be in life. Most of us are knowledgeable and skilled in our own area but if we have a negative attitude we will not excel. A negative mindset will be an impediment in our growth personally and professionally. The resource person ensured the students that the training which will be provided to them will be free of cost. The session ended with an encouraging speech given by Dr. Sakshi where in she encouraged the students to take the training as it will be beneficial in the future for them only.

Report on Follow up Session on Soft Skills

Date: 17/01/24

SDP/FDP: SDP

Objectives: Placement opportunities in the BFSI sector

Organizer: IQAC & Placement Cell

Venue: Room No 57 4th Floor

Name of the resource person: Ms Asha Sahani

No of Beneficiaries: 39

Report: A follow up session on Soft Skills was conducted by the IQAC and the Placement Cell on 17th January 2023 at 8:00 AM. This follow up session was to basically make the students of the third year aware of the job opportunities in the BFSI sector. The session was held in association with TNS Foundation, an NGO who provide placement opportunities to students in the BFSI sector and the training provided to the students is free of cost. The session was led by the resource person Ms Asha Sahani. The resource person started her orientation with a short introduction on the meaning of soft skills, further dividing skills into soft skills and hard skills. Soft skills determine the behaviour, the emotions and feelings of an individual. It evaluates the thinking that is the critical thinking of a person. She further added that soft skills play a vital importance in obtaining a job during any kind of job interview. The resource person stressed on building good communication skills with people around. The resource person then moved on to talked about the importance of controlling one's own emotions. She explained the importance of balancing the IQ (intelligent quotient) and EQ (emotional quotient) as they function in the same manner. According to her, emotionally intelligent persons are the ones who have a strong sense of self-control in any situation. Emotions also require self-awareness. An individual must know how to control and must be aware of the different variations of emotions that he/she experiences. It is also vital for an individual to understand and respect the emotions of others and also possess the quality of empathy towards others. However, understanding another's emotions must not cross the required boundaries especially in the professional field.

The resource person concluded her orientation by stating that soft skills must consist of self motivation, positive thinking with the right attitude towards every problem and to eradicate negativity. She states that if we have a negative attitude our success rate will go sliding down but if we have a positive attitude we are going to have 100% success in our lives. Having a positive attitude will take us where we want to be in life. Most of us are knowledgeable and skilled in our own area but if we have a negative attitude we will not excel. A negative mindset will be an impediment in our growth personally and professionally. The resource person ensured the students that the training which will be provided to them will be free of cost. The session ended with an encouraging speech given by Mr Amit Bansod where he encouraged the students to take the training as it will be beneficial in the future for them only.

Report on Coastal Cleaning Drive

Date: 16/09/2023

Level : Area Level

Hours Devoted: 3 hours

Objective:

1. To raise awareness among people about marine pollution.
2. To reduce garbage and plastic in the sea with the help of local people.

Number of Participants: 66

Organizer: NSS UNIT

Report

Every year thousands of tons of garbage winds up in the oceans, with at least 60% of that being composed of plastic material. Plastics, especially, last a very long time in the sea and are in such abundance that there are 46,000 individual pieces of plastic litter for every square mile of ocean! This is a dire situation for the health of the earth's oceans, which directly impacts the health of its people.

It's time to celebrate International Coastal Cleanup Day and help make the planet a cleaner, happier place for humans, plants, and animals.

On the occasion of International Coastal Cleanup Day, N.S.S. Unit of Clara's College Of Commerce, in association with Ekata Manch organized Beach clean-up drive on 16th September 2023 at Sagar Kutir, Versova Beach. The aim behind the 'Beach Cleaning Drive' was to remove the plastic waste which was thrown by people and thrown out from the sea. Teams of volunteers spread all around the beach with disposable bags and collected many types of plastic waste.

The Drive was ended with giving the waste to the dumping van and meeting with the beach cleaning officials and leaving behind a clean beach. Volunteers have collected 120-130 bags of garbage which weighted around 25 kgs each.

Outcome: The drive left the volunteers pondering upon how waste can drastically harm the environment.
